to see if the spat could survive in one of the protected coves and then be replanted in beds as they grow to size. Selectmen were receptive to this idea.

Paul Kelley asked for the same budget amount as last year. He said that the fire alarm system now has 40 miles of wire installed. Selectmen questioned Mr. Kelley on the number of actual fires reported by the system since installation began (vs false alarms). Mr. Kelley said that 3 or 4 real fires had been reported by the alarm system. He said that the system's value is in lower insurance rates to those public buildings and businesses who have hooked into the system.

20 hours a week without pay because he considers the system as his hobby. He said that he will come to the town this year with a request for a bucket truck (approximate cost \$34,000) to use to work on the line. He said that he could use such a truck for 10 hours per week. Selectmen asked if the truck could be used by the tree warden and Kelley replied that it might but it may be too low for much tree work. The possibility exists, he stated, that it could be rented to a neighbor town if they would care for it well.

Lloyd Haskell, Harbor Master, asked for a level funded budget. He said that his concern at present is to get a good parking attendant for the summer months to collect the fees and see that parking is properly done. The lack of ice this winter has been fortunate he stated because the piles have not been pulled saving the costly driving that has to be done when this happens.

Scott Armbruster, Building Inspector, requested a budget \$125.00 greater than last year. Mr. Armbruster said that his department has run out of needed forms and the \$125. is the cost of the printing. The forms last through several years he

The highway was previously marked in that manner and is still lined for four lanes in the neighboring towns. The present two-lane pattern with breakdown lanes was adopted in 1981 after a \$3 million dollar resurfacing project.

Senator MacLean filed the legislation as a result of serious concerns by the Selectmen and residents of the two towns that the two-lane pattern is dangerous. Senator MacLean has called the present pattern "a major public safety hazard".

Senator MacLean and officials of the two towns involved have been trying for almost a year to have the highway returned to the safer four-lane pattern, and have met with

Senator MacLean's proposed legislation is an attempt to cut through the federal and state red tape that has frustrated the efforts of those local officials to return Route 6 to the previous four-lane markings. Dates designated for the SAT Question-and-Answer Service, following which students may request a copy of their test questions and answers, will be announced in March 1983.

Juniors and their parents should take this schedule into consideration when planning fall activities; the PSAT is normally recommended for all students who plan to attend college and/or who wish to be considered for a National Merit Scholarship program. All persons planning community activities in which students may be involved are asked to consider these testing dates which normally occupy the students until about noon. Consideration should be given to avoiding the planning of activities on the evening preceding such examinations.

The United States holds the honors for capturing the highest award in tennis—the prestigious Davis Cup. From its beginnings in 1900 through 1980, Americans won the Davis 26 times.

Although you might not qualify for such high power competition, if you're a tennis player the exciting world of team competition is still open to you. Thanks to the United States Tennis Association (USTA), it's now possible to form a local league that can compete in a nationwide program.

USTA league membership is open to both men and women who are 21 years of age or older.

Even if you are already in a tennis league, you can affiliate with USTA or you can form a new league. For free leaflets, write to USTA, 51 East 42nd Street, New York, NY 10017. Or call 1-800/331-1000, operator 56.

### Tremont Dam Dedicated

"This hydroelectric project demonstrates another step in developing renewable energy

resources in Massachusetts," said State Energy Secretary Sharon M. Pollard in a message delivered at a dedication ceremony for the Tremont Dam in Wareham on January 21st.

Commonwealth Electric Company will purchase the electric energy generated by the plant through a contract with the Essex Turbine Company.

The electric output of the hydroelectric plant should approach 220 kilowatts, or enough energy to supply approximately 125 homes, according to R.F. MacDonald, vice president, COM/Electric. COM/Electric will buy the electricity generated at 90 percent

To honor Mr. Packard for his efforts, Richard W. Post, Jr., chairman of the Wareham Board of Selectmen, announced that the turbine building would be named "The Robert F. Packard Hydroelectric Laboratory". since the dam will be a test site for Essex Turbine Company.

of Montreal in the French-speaking Province of Quebec, Canada. Students will visit French cultural sites, attend French movies, and eat at French restaurants in addition to attending daily French classes. They also will meet leading figures of Quebec's art, politics, and literature. They are encouraged to stay in the dormitory while at SMU, and they must live in the dorm in Montreal. While in Canada, participants will integrate with all the students at the University of Montreal for all educational and cultural activities. The director of the program, SMU Professor Melvin Yoken, will be with the students in Montreal.

"I know of no other summer program offered in this part of the country which places students of French right in the midst of a French-speaking population", said Yoken.

He is insistent about his rule that students speak French at all times. "The best way to learn a language is through total immersion," he said. In last summer's program the students even played the word game Scrabble in French.

The French Summer Studies Program is open to all who wish to expand their language ability including high school students who have completed two years of high school French. Up to 9 credits may be earned in the program. Several scholarships will be announced in May.

Students can register between March 1 and May 1. For information on tuition and fees, call Dr. Melvin Yoken at 999-8335. The program is sponsored by the SMU Department of Foreign Literature and Languages and the Division of Continuing Studies.

## Benefit Golf Tournament

GOLFERS TO SCORE AGAINST BIRTH DEFECTS  
AT "FREEDOM FEDERAL OPEN" GOLF TOURNAMENT

Golfers will score against birth defects at this year's "Freedom Federal Open" Golf Tournament on March 26 and 27. All proceeds of the tournament, which is again sponsored by Freedom Federal Savings, a division of Northeast Savings, will benefit the Southeastern Massachusetts Chapter, March of Dimes Birth Defects Foundation.

"Americans today are more health conscious than ever before," says Rick Trachimowicz, Regional Manager of Freedom Federal Savings and Tournament Adviser. "People are into natural foods, jogging for exercise, and working to stay in good physical shape. Yet when it comes to health of our newborns - the future of America - one in 12 infants is born with birth defects, the nation's most serious child health problem.

"The March of Dimes sponsors research, medical services, and public and professional health education programs to prevent birth defects and improve maternal

newborn health. But they need your help to win the game," reminds Mr. Trachimowicz. "Support the March of Dimes. The two day tournament will be played simultaneously at Bass River Golf Course and Dennis Pines Golf Course. The \$30.00 entry fee includes greens fees and is tax deductible."

The tournament will be a 36 hole medal play, full handicap, two ball best ball
